

Reciprocating Saw Blades

Specially designed blades for the construction trades. All reciprocating blades are carbide tipped for cutting clay bricks and blocks, gas concrete, autoclaved aerated concrete (AAC) and similar materials.

Reciprocating Saw Blades

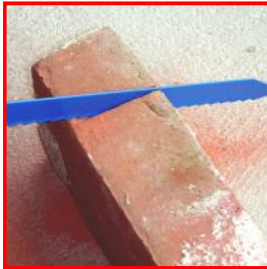

**DANISH TOOL
PRODUCTIONS**

BLACK LABEL

This blade is made for sawing gas concrete, Siporex, AAC, and similar soft products. The blade has large carbide teeth and specialized design for high speed cutting and long blade life.

Size	Teeth
235mm X 20mm	16mm pitch
300mm X 20mm	16mm pitch
300mm X 50mm	16mm pitch
400mm X 20mm	16mm pitch
450mm X 50mm	16mm pitch

BLUE LABEL

Designed to quickly saw clay bricks and blocks, and joints. Cuts through small metal components such as nails and screws encountered when removing windows and doors.

Size	Teeth
150mm X 20mm	8mm pitch
235mm X 20mm	8mm pitch
300mm X 20mm	8mm pitch
300mm X 50mm	8mm pitch
400mm X 20mm	8mm pitch
450mm X 50mm	8mm pitch

PINK LABEL

A self-sharpening reciprocating blade with special carbide teeth suitable for sawing bricks and lime sand masonry. The aggressive design enables fast sawing through many different materials.

Size	Teeth
150mm X 20mm	12mm pitch
235mm X 20mm	12mm pitch
300mm X 20mm	12mm pitch
300mm X 50mm	12mm pitch
400mm X 20mm	12mm pitch
450mm X 50mm	12mm pitch

GRAY LABEL

For hard clay brick, hollow blocks, and stones. The unique design has self sharpening carbide teeth, combining high speed with vibration reduction.

Size	Teeth
150mm X 20mm	6mm pitch
235mm X 20mm	6mm pitch
300mm X 20mm	6mm pitch
300mm X 50mm	6mm pitch
400mm X 20mm	6mm pitch
450mm X 50mm	6mm pitch

ORANGE LABEL

A universal blade to cut bricks, blocks, and wood, due to its fine carbide teeth & unique design. The blade is self sharpening and gives very long life when sawing wood.

Size	Teeth
150mm X 20mm	6mm pitch
235mm X 20mm	6mm pitch
300mm X 20mm	6mm pitch
300mm X 50mm	6mm pitch
400mm X 20mm	6mm pitch
450mm X 50mm	6mm pitch

GREEN LABEL

The first combination sharp steel and tough carbide blade. It cuts all types of wood and is an effective pruning saw.

Size	Teeth
100mm X 20mm	6mm pitch
150mm X 20mm	6mm pitch
235mm X 20mm	6mm pitch
300mm X 20mm	6mm pitch
300mm X 50mm	6mm pitch
450mm X 50mm	6mm pitch
